PROFILE

Completing a Master's in Business Administration, specialising in International and Sustainable Finance at KU Leuven, with experience across financial analysis, reporting and business support. Enjoys working with data and AI tools, understanding what sits behind the numbers, and turning complex information into clear insights that support decision-making.

EXPERIENCE

Finance & Administrative Intern

Embassy of the Republic of Azerbaijan in Switzerland

Sep 2025 – Dec 2025

- Maintained and updated Excel-based financial records supporting expense tracking, budget follow-up and internal reporting
- Verified financial information against invoices, receipts and supporting documentation, identifying and resolving inconsistencies
- Organised financial data and documentation into clear, structured summaries for internal review

Marketing Intern

Belixys

Feb 2023 – Sep 2023

- Supported preparation of marketing and commercial materials, including pricing documents and campaign content
- Conducted competitor and market research to support commercial and marketing decisions
- Created and maintained structured product and pricing templates in Excel and Word

Human Resources Assistant

StepStone

Jul 2022 – Aug 2022

- Supported recruitment, onboarding and internal mobility processes using Excel and SmartRecruiters
- Coordinated interviews, calendars and follow-up communication between candidates and hiring teams

Personal & Administrative Assistant to the Ambassador

Embassy of the Republic of Azerbaijan in Belgium

2018 – 2021

- Managed correspondence, records and confidential documentation in an international diplomatic environment
- Coordinated meetings and communication with governmental, diplomatic and business stakeholders
- Managed multiple requests and competing priorities independently, ensuring documentation was prepared accurately and on time

EDUCATION

MBA - International & Sustainable Finance

KU Leuven

Sep 2025 – Expected Sep 2026

- Coursework in International Finance, Sustainable Finance, Data Sciences in Finance and Financial Technologies
- Master's thesis analysed 66 publicly listed Eurozone banks (2016–2024), examining how profitability and capital strength influenced dividend and share-buyback decisions

Bridging Programme - Master of Business Administration

KU Leuven

Sep 2023 – Sep 2025

- Accounting and financial reporting, corporate finance, statistics, research methods and business process modelling (BPMN 2.0)

Bachelor of Business Management

Odisee University of Applied Sciences

Feb 2020 – Sep 2023

- Broad foundation across business, marketing, finance, economics, statistics, ICT and organisational management

SKILLS

Finance: Financial reporting, financial statement analysis, budgeting & forecasting foundations, variance analysis, expense tracking, data validation

Data & Analysis: Excel, SPSS, Power BI (currently learning), Python fundamentals, SQL fundamentals, R for regression/panel-data analysis

Business & Process: BPMN 2.0, process modelling, requirements gathering, structured research, problem solving

Communication: Professional English, client-facing communication, cross-team coordination, presenting findings to non-technical audiences

Languages: English (C2), Azerbaijani (C2), French (B1), Turkish (B1), Dutch (A1)

FEATURED PROJECT

MASTER'S THESIS

Bank Payout Policy: Dividends versus Buybacks

Co-authored with Adam Lamaizi, under Prof. Dr. Tamas Vadasz · 66 Eurozone banks & 64 non-Eurozone banks · fixed-effects panel regression · R Studio

Tested whether ECB rate hikes pushed listed Eurozone banks to favor share buybacks over dividends, and whether that shift ran through net interest margin (NIM) and capital strength (CET1).

Key finding: the direct link was weak, but the interaction with the post-2022 tightening period was significant. Banks with wider margins and stronger capital buffers were significantly more likely to use share buybacks once tightening began.
